Agile Ruby Ruby on Rails PostgreSQL SCRUM HTML CSS MySQL PHP

★ PROJECTS

Site Reliability Engineer, Itau Cuenta Digital

2022-01 — Present

In this project I had many chances to try and implement some technologies and solutions with previous research and presentation to my client's DevOps teams

Jenkins AWS Docker Kubernetes Terraform Prometheus CI CD Gitlab Api Connect Ownership

Site Reliability Engineer, DevOps Practitioner, AbInbev DevOps Latam

2021-07 — 2022-01

My stance here was short although I learn too much about team management and deal with a Global team to adopt technical methologies, I learn more about soft skils such as speaking to many teams an deal deadlines though

Azure DevOps Backstage Leadership Ownership Self-management Team management

Site Reliability Engineer, Exemplar, Metis

2019-11 — 2021-07

We need to analyze, plan and implement DevOps best practices such CI/CD, make pipelines and use Continuous deployment tools

Jenkins OKTA AWS GCP Docker Kubernetes Terraform Harness New Relic CI CD
